

Accessibility Guide

All areas of the venue are flat, but it is worth noting that most of the venue is grassed. This may cause difficulty for those who are wheelchair-bound or using a mobility scooter, especially if it has rained in the past few days. Make sure to keep an eye on the weather in the days leading up to the Field Days to plan your visit best!

Parking

Accessible parking can be found at each of the public entry gates to the venue (gate 1, gate 3, gate 5 and gate 7).

Accessible Toilets

Toilets with greater accessibility are located around the venue, including next to the exhibition pavilion and next to the function pavilion (refer to site map).

Site Map

Includes everything you'll need, including locations of disability parking, accessible amenities and information booths.

Medical Help

First Aid volunteers are located at Site 428, near the Administration Centre.

Contact
